\$30

2012 Post Legislative Update

The 2012 Florida Legislative Session will be very active and we will see many bills passed.

- *Will building permits and Development Orders be given additional extensions?*
- *How will growth management change in 2012 and beyond?*

Join us on April 18th to hear from the lawmakers themselves what new laws and changes to existing laws will impact the building and land development industries.

Three prominent land use attorneys will also provide their thoughts on the legislative session from a land use perspective.

To pre-register, please email Heather Francis at
