

REMODELERS COUNCIL

Optimizing Existing Building Energy Performance

Improving the energy performance of existing buildings presents both opportunities and challenges. Energy conservation requires investigation and cost-effective solutions related to the building, equipment, operations, and occupant habits.

Join us at this luncheon as we discuss common **RESIDENTIAL** and **COMMERCIAL** building retrofits, their relative costs, leveraging tax incentives, and optimizing for the shortest return on investment.

Speaker: Dr. Jennifer Languell, *Founder and President of Trifecta Construction Solutions*

Topics include: Retrofit information – both commercial & residential; Energy audits; Energy Star changes for 2011; State energy program funds – new money from the state; Advances in solar

Wednesday, August 11, 2010 | 11:30am - 1:30pm

Royal Palm Yacht Club 2360 West 1st St., Fort Myers
